

Subject: Proposed Changes to DHALO

Date

Dear Director Arway,

I am writing to voice my opposition to the proposed changes in the DHALO regulations. It makes no sense to allow bait fishing in areas that were specifically created not to do so (as in the title “Artificial Lures Only”). Likewise, since catch and release, year round fishing is an integral part of the program, increasing harvest should be of the lowest priority. The popularity of the DHALO sections is a testament as to how Pa trout fishermen feel about this issue. Allow anglers of all ages to enjoy these areas as they are and do not pass the proposed changes.

Respectfully,
