

Subject: Proposed Changes to DHALO

Date

Dear Director Arway,

As an avid trout fisherman in Pa, I urge you NOT to pass the proposed changes in regulations for the DHALO areas. The new rules would go against the very reasons the program was started in the first place and it is hard to see how they will accomplish any of the stated goals. Young people can (and do) fish DHALO streams now. The regulations would be more complicated and hard to enforce. Decreased size limits could harm wild trout populations. DHALO is currently an extremely popular program. There is no need to mess with it.

Respectfully,
